Vocabulary	Piece wise functions. Review dependent/Independent variable Domain, Range Vertical/ horizontal line test	Piecewise functions, step functions, rate of change	Rate of change. Sets: interval notation, roster notation.	Inequalities.	Inequalities and union,intersection of intervals.
I can ..	I can recall terminology about functions and identify one-to-one functions	I can recognize discontinuities and find rates of change for linear sections.	I can recognize forms of representing sets and identify infinite and finite sets of real numbers.	I can solve inequalities with positive coefficients and give the solution in two different ways.	I can solve simultaneous inequalities in one variable and give the solution in two forms.
